Personal Summary

An enthusiastic and confident Network Engineer and Cyber Security Manager with the necessary drive and determination needed to resolve complex networking and security issues. Possessing effective organizational skills and excellent working knowledge of networking and security technologies and having a commitment to keep up to date with the latest developments. Experienced in providing motivation, guidance and an up to date networking and security consultancy service to both colleagues and clients. Now looking for a new and challenging network and security specialist position, one that will make best use of my existing skills and experience and further my development.
